

CENSUS 2011 – VISION STATEMENT

"To conduct the 2011 Population and Housing Census, which collects demographic and housing data on every individual resident in Anguilla, during the census period and ensure that quality data is available in a timely and cost effective manner for use in evidence based decision making, as well as for use in learning, thereby removing statistics from an abstract to an applied science."

PRESS RELEASE PRELIMINARY CENSUS FINDINGS #2 - UPDATED

“How Many and Where? – Size, Composition and Location”

THE VALLEY – Updated preliminary findings from the Anguilla Population and Housing Census (AP&HC) 2011 indicate that the enumerated population at the Visitation Record (VR) stage was 13,037 persons. The visitation record stage was the preliminary count stage, which allowed for these preliminary figures to be compiled in the interim; that is, while the data from the main questionnaire are being coded, edited, scanned and verified, prior to the logic checks, analysis and report writing.

The figures indicate that there was a 12.8% increase in the total population over the 2001 census figure of 11,561. Of the total 13,037 persons, 6,469 or 49.6% were males and the remaining 6,568 or 50.4% were females; a sex ratio of 98.49, that is for every 98 males there are 100 females or for every 1 male there are 1.02 females.

The total count however, which includes persons in institutions, temporary persons staying in hotels and guest houses along with boats within Anguilla's waters on May 11 – Census night was 13,550 persons.

Geographic Distribution

The preliminary AP& HC 2011 figures show that all except three (3) districts had increases in their resident population when compared to the 2001 census figures. The district with the largest increase; up 35.8% was the district of Stoney Ground. The preliminary recorded figure for the 2011 Census stands at 1,539 as compared to 1,133 in 2001.

The district of North Side followed with a 32.0% increase in the population over the 2001 Census figures; moving from a total of 1,195 to 1,577. This district accounted for the second largest proportion of the total preliminary resident population; 12.1%, the district of South Hill accounted for the largest proportion, 13.2%, with 1,716 persons residing there.

The district of Sandy Ground continues to be the district with the smallest number of residents and proportionate contribution to the total resident Anguilla population. Sandy Ground experienced a 16.1% decline in its 2011 preliminary population figures when compared to the 2001 census figures. In 2011, the figure stood at 230 as compared to 274 in 2001. Additionally, it was the place of residence for 1.8% of the total population as compared to 2.4% in 2001.

The two other districts that recorded inter censal declines were The Valley including Upper Valley, 8.7% and The Quarter with 1.4%.

Of the eleven (11) districts that experienced inter censal increases eight (8) showed double digit increase in their resident population figures.
