INTRODUCTION

The 2020 General Elections marked a watershed in the conduct of elections in Anguilla. There were several changes that were designed to make the election process, free and fair. The use of modern technology made the process more efficient and effective. The innovations included:

- Enactment of a modern legislative framework, namely, the Elections Act, 2019, as amended and the Elections Registration Regulations, 2020
- Development of an Online Voter Database
- Introduction of Voter Registration Cards
- Introduction of Electronic Poll Books
- Introduction of Advance Polls for certain categories of voters
- Introduction of electronic tabulating of votes using DS200 Electronic Tabulation Machines
- Commissioning of a full service, stand-alone Central Electoral Office
- Conduct of public voter education sessions
- Introduction of a Single Island Wide Electoral District to elect four (4) candidates in addition to the seven (7) Single Member Electoral Districts.

The election campaign and the preparation for the elections by the Central Electoral Office were hampered by the Coronavirus/COVID-19 Pandemic. Anguilla, like the rest of the world introduced strict health and safety protocols including lockdowns of non-essential government departments and the closure of the country's borders.

At present, the borders remain closed. This meant that registered voters who reside overseas could not enter to vote. This affected the overall voter turnout compared to the 2015 General Elections.

The COVID-19 Pandemic and the closure of the country's borders prevented a physical observer mission from the Commonwealth Parliamentary Association – British Islands and Mediterranean Region (CPA BIMR) for the 2020 General Elections. The alternative was an Election Expert Mission which did their observations online.

Physical observation of the election process was carried out by a team of local observers assembled by the Anguilla Christian Council and the Anguilla Evangelical Association. Training and logistics for this Anguilla Independent Citizens Observers Team were coordinated by the Governor's Office. The team leaders were Reverend Dr. Whycherly Gumbs, Pastor Phillip Gumbs and Ms. Avenella Griffith.

Election officers spent countless hours of training between May 2019 to June 2020 in order to operate the new DS200 Tabulating Machines and the Electronic Poll Book and to understand the requirements of the new Elections Act, 2019 as amended. Returning Officer, Mrs. Daphne Jacobs-Richardson volunteered her services as training officer and along with DITES Staff, Mr. Clemaurde Gumbs and Mr. Delon Skellekie gave expert technical support on site and at the various public education sessions. Mrs. Daphne Jacobs-Richardson with the assistance of Ms. Laureen Bryan was instrumental in producing and printing detailed guidelines for all election officers.

OFFICE ADMINISTRATION

The Central Electoral Office conducted its operations with the following staff:

Supervisor of Elections	-	Mr. Rodney Rey
Deputy Supervisor of Elections	-	Mrs. Maria Hughes
Electoral Registration Officer	-	Ms. Kerissa Proctor
Assistant Registration Officer	-	Mr. Corey Buffonge
Administrative Assistant	-	Mrs. Louise Hazell
Custodian	-	Mr. Nicholas Gumbs

The Supervisor of Elections up to 10th February, 2020 was Ms. Aurjul Wilson. Ms. Suzette Harrigan of the Department of Public Administration was loaned to the Central Electoral Office during peak customer demand.

The Central Electoral Office received expert technical support from the Department of Information, Technology and E-Government Services (DITES). During the period January 2018 to July 2019, Mr. Rohan Petty designed and developed the application to create the Voter Registration Database. He patiently transferred all of the data from the Register of Voters to the new online database. Also, Mr. Clemaurde Gumbs designed and installed the application for the new Electronic Poll Book and he along with Mr. Delon Skellekie designed and installed the application for the display of the election results from the Electronic Tabulating Machines.

Voting for Advance Polls and General Elections was facilitated by the technical expertise of Mr. Tim Webster and colleagues of DITES who installed the internet network at all polling stations.

OVERVIEW OF THE CONTINUOUS REGISTRATION PROCESS

Since the 2015 General Elections the continuous voter registration programme was smoothly implemented. Voters who met the qualifications for registration were automatically entered into the voter database. This facilitated the preparation of the various lists of voters as required by law.

Following a busy registration period in the first quarter of 2020, the Revised Preliminary List/Register of Voters recorded 11,951 voters. This was a 9.55% increase over the 10,909 registered voters for the 2015 General Elections. The continuous voter registration programme was complemented by the issue of Voter Registration Cards, which were used for the first time in the 2020 General Elections. A total of 6,799 voters collected Voter Registration cards.

On election day there were a few instances where a voter's name was listed in the voter database but did not appear on the Register of Voters. These clerical errors will be corrected.

One negative aspect of the registration process was the provisional registration of voters who, according to learned legal advice, did not meet all the requirements for registration as set out in the Anguilla Constitution Order, Section 43(1). As a result, the registration of thirty-six (36) persons was rejected by the High Court.

OVERVIEW OF ADVANCE POLLS

For the first time in the history of elections in Anguilla, Advance Polls were conducted on Friday 26th June, 2020. A total of 744 voters applied to vote at the Advance Polls. Polls opened at 9.00 a.m. and closed at 5.00 p.m. Voting was conducted at the following polling stations:

House of Assembly	-	Districts 1, 3, 4 and 6
Magistrate's Court	-	District 5
High Court	-	District 2
Internal Audit Department	-	District 7

Voting at the House of Assembly was chaotic for the first few hours. The building proved to be very unsuitable for the number of districts assigned to it and for the accommodation of voters with severe physical handicaps.

Voting at the other polling stations went smoothly throughout the day. The table below shows registration for Advance Polls by Districts.

Voting was heavy in the morning hours in all districts. Except for District 1, Island Harbour and District 6, Road South, most of the afternoon session was generally quiet. Polling Stations closed at 7.00 p.m. and all twenty (20) DS200 Tabulating Machines were brought to the House of Assembly for the tabulation of the results. After a delay of one hour for the delivery of the District 1, Island Harbour, Tabulating Machines, the tabulating process began at about 9.00 p.m. DITES staff, Mr. Delon Skellekie and Mr. Clemaurde Gumbs coordinated the tabulation and presented the results in screen shots for each district.

The proceedings were carried live on local media, the Government of Anguilla YouTube Channel and Facebook Page, In Anguilla Facebook Page in collaboration with Pink Mako and Lloyd Live. Technical support for the live streaming was provided by Mr. Vaughn Hazell and the staff of DITES. Mr. Keith 'Stone' Greaves of the Department of Information and Broadcasting (Radio Anguilla) enthusiastically commentated during the count.

After the initial electronic tabulation of the results, an electronic recount was demanded for Districts 2, 3 and 7. The electronic tabulation recount involved inserting the ballot papers one at a time into the DS200 machines. The results were the same as the data printed at the close of polls report.

The Anguilla Progressive Movement candidate for District 3 demanded a manual recount and this was scheduled for Tuesday 30 June, 2020 at 4.00 p.m. This manual recount yielded the identical data as at the close of polls report and the electronic recount.

The new voting system presented some challenges for some categories of voters. This is reflected in the surprisingly high number of spoiled ballots. Table XI below shows the number of spoiled ballots by district and polling stations.

RECOMMENDATIONS

- Revise the constitutional provision on ‘residence’ as a requirement for voter registration.
- Amend the details/bio-data for the voter registration card to make it more akin to a national ID Card.
- Amend the Elections Act, 2019 to make it mandatory for all votes to present a Voters Registration Card in order to vote.
- Amend the Elections Act, 2019 Section 93 to give precedent to data in the electronic voter database over the hard copy Register of Voters.
- Conduct the Advance Polls the day before General Elections at the polling stations in the Districts.
- Begin voting in the Advance Polls at 7.00 a.m. and end at 4.00 p.m.
- Amend the Elections Act, Section 60, Advance Polls to include:
 - Fire and Rescue Officers
 - Medical Technologists
 - Prison Officers
- Amend the Elections Act to articulate the role of the Deputy Supervisor of Elections.
- Amend the Elections Act, Sections 65(14) and 64(11) to provide for a charge for a demand of an electronic recount and a charge ten times more for a demand of a manual recount.
- Amend the Elections Act to prohibit the use of cell phones at Polling Stations.
- Amend the Elections Act, Section 81 to take into consideration Advance Polling Day in clarifying when physical campaigning and broadcasting on media should cease.

- Explore the possibility of online nomination of candidates and/or reduce the hours for nomination of candidates.
- Increase the remuneration for election officers in line with the demands of the Elections Act, 2019, as amended.
- Clarify the role of police officers on Advance Polls and General Elections Day in order to eliminate allegations of canvassing/campaigning by candidates and agents within the 100 yards limit.

Reprint of recommendations from the 2015 report:

- Priority should be given to the redrawing of the electoral boundaries which have not been changed since they were first drawn in 1972. Changes in Anguilla's demography (expansion of residential areas and patterns of settlement) have created a situation where there are large disparities in the distribution of registered voters among the seven electoral districts. This situation is not good for our democracy, and I recommend that a redrawing of the boundaries should be undertaken before the next general election constitutionally due in 2025.
- The elections law should be amended to:
 - regulate party campaign finance. Such regulation should include the requirement for public disclosure of contributors to, and recipients of, election campaign expenses in addition to providing other controls and checks.
 - Section 28 of the Elections Act should be amended to include time frames for the Court to act expeditiously and give priority to appeals from the Supervisor of Elections, especially in an election year.
 - The Elections Act should be amended to ensure that objections to the preliminary list of voters are not allowed within 30 days of the date of polling.

CONCLUSION

The 2020 General Elections have come and gone and all Anguillans can be proud that our democracy is alive and well. The General Elections were free and fair and without violence and for this we must thank God and the electorate. The few problems encountered can be resolved if and when the recommendations made are implemented. Thanks to all and may Anguilla ever remain “**proud, strong and free.**”

Rodney M. Rey
Supervisor of Elections
