*Thank You.*

YOU MAY FIND IT USEFUL TO MAKE A COPY OF THIS FORM FOR FUTURE REFERENCE OR TO ANSWER ANY QUERIES THAT MAY ARISE.

## **INSTRUCTIONS FOR COMPLETING FORM BOP 14A**

### Definition of residents and non-residents

- (a) Residents include all enterprises operating in this economy, regardless of whether they are owned by nationals or foreigners. Persons who normally (for one year or more) live and work in this country are also residents, regardless of their citizenship.
- (b) A non-resident is any individual, enterprise, or other organisation ordinarily living or operating in a country other than this country. Transportation companies operating from another country are examples of non-residents. Persons who live and work in the country for less than one year are considered non-residents.

The return is designed to measure international transactions of International Direct Investment Enterprises operating in this country; that is, transactions between resident companies and their foreign or non-resident shareholders or other non-residents.

A direct investment relationship is deemed to exist between the company, as an investment enterprise, and those foreign investors holding 10% or more of the ordinary shares or voting stock of the former.

Branches and subsidiaries of foreign-owned enterprises are regarded as "resident" transactors. Transactions between such institutions and their head office or other non-residents are considered "foreign" transactions.

A1. & B1 These items refer to telephone and international telecommunications companies.

**A2. Include income from foreign branches, subsidiaries and affiliates, as well as income from other sources such as mutual funds.**

**B2. Service fees paid to non-residents for accounting, auditing, advertising, marketing and other services.**

**C. Reinvested earnings comprise of the share of direct investors' earnings that are not distributed as dividends; earnings that branches and other unincorporated enterprises do not remit to direct investors.**

**D1. Investment and its financing. Capital expenditure should be estimated as work done during the calendar year, including major repairs made. If information is not available on a calendar year basis please report figures for the nearest accounting year.**

D2. (b) Report the amount of finance and investment capital received from abroad during the year
