DEFINITIONS

(1) Definition of Second Class Mail:

Printed papers – Limit of weight 4 lbs., which may be extended to 11 lbs. for a bound volume posted singly.

Packing and Make-Up: Printed paper items are subject to examination in the Post. They must be packed so that they may be easily examined without breaking any seal, and then repacked without using any additional material.

Small Packets – Limit of weight 2 lbs. (1 lb. to certain countries). The small packet post is specially provided for the transmission of goods (including trade samples), whether dutiable or not, in the same mails as Printed Papers, which as a rule travel more quickly than the parcel mails. Letters (including tapes bearing personal messages) may not be enclosed in Small Packets.

Packing and Make-up: The sender must show his name and address on the outside of the packet, and must mark the packet conspicuously "Small Packet" in the top left-hand corner on the address side.

Small packets must be packed so that they may be easily examined without breaking any seal. String may be used to secure the wrapping if tied with a simple knot easy to untie. Sealing with adhesive tape in such a way that the tape must be broken or removed to allow examination of the contents is not permitted.

Exceptionally, the packing regulations which apply to certain articles (for example, fragile materials, liquids and so on) apply also to such articles sent in Small Packets. In any case all articles should be packed in a manner that will adequately protect the contents against breakage or damage.

Inadmissible Articles: Articles prohibited from the letter post are also excluded from transmission in Small Packets.

The following also may not be sent in Small Packets:

Letters, notes or documents having the character of current and personal correspondence (including discs, tapes or wires bearing recordings of current and personal messages); coin, banknotes, currency notes; securities of any kind and instruments payable to bearer; platinum, gold or silver, manufactured or not; precious stones; jewels and other valuable articles; postage stamps whether cancelled or not, or any paper representing a monetary value.

(2) Greeting cards in unsealed envelopes are admissible as Printed Papers provided any manuscript addition to the message printed on the card does not consist of more than 5 words of conventional greeting.

(3) Second Class Mail must not be sealed, even when registered.

Definition of Zones

(4) Zone 1 All places in the Caribbean from Puerto Rico to Trinidad.

Zone 2 Canada, United States of America and all places in the Western Hemisphere not included in Zone 1.

Zone 3 United Kingdom and Europe excluding Cyprus and the countries formerly part of the USSR.

Zone 4 Cyprus, the countries formerly part of the USSR, Australia, New Zealand, Africa, Asia and Far Eastern Countries.

(5) The limits of weight and size in respect of items sent by Air Mail are those stated for the equivalent class of article sent by surface mail outside Anguilla.

(6) Second Class Mail, i.e. printed papers (including newspapers), small packets and literature for the blind, must be made up in such a manner that the contents may be inspected without the need to break or cut any string or tape or to damage the wrapping in any way. Items which do not comply with that requirement may not be sent by second class mail and must be prepaid at letter rate.
